

# Integrated Tier 2 & Tier 3

Turning Point's Integrated Tier 2 (T2) and Tier 3 (T3) is a unique, innovative, proven model that provides an open-access, community-based service that delivers outstanding results.

## The challenge

Substance misuse is on the rise. Every day the numbers grow and the costs increase. Services are stressed. Gaps appear. Targets are missed. And the lack of resources has a huge impact on the community. More families at risk, more children at risk, more crime, more prisoners, more patients in A&E, more people waiting for costly specialist treatments – and more deaths.

## The solution

Turning Point's Integrated T2 and T3 can put an end to the spiralling costs. It can help you reach targets, reduce

waiting lists, decrease risk, increase retention and offer a new, flagship local service. Offering high quality treatment including prescribing, our Integrated T2 and T3 model gives you an effective alcohol and drug service that delivers real results.

## Integrated T2 & T3: A proven service

The Turning Point model has proved itself. It's up and running today. In Somerset it has helped commissioners deal with 50 per cent more people in specialist prescribing and 15 per cent more people in shared care for the same cost. It has built the capacity to eliminate the traditional lengthy waiting list. By being established as a 'dummy' GP clinic it saves the DAAT £200,000 per year in prescription costs. The service is more accessible, reduces travel, removes barriers to support and ensures a higher and more standardised quality of care.

## Designing and implementing a successful service

Turning Point has the experience you need to transform the way you deal with T2 and T3. Working in partnership with all stakeholders including GPs, Police, Probation and Social Services,

we can design a bespoke specification for your area. We can deal with all aspects of its implementation. We can ensure effective TUPE transfer, consultation, recruitment and training. We can design IT, source accommodation, register as a GP Clinic and offer quality HR management – and ensure your service sets new, world-class standards.

### The whole person

Turning Point is the largest provider of substance misuse services in England. We've been working with drug and alcohol misusers for more than 40 years. We know what works – and what doesn't. Our personalised, harm-reduction and abstinence-focussed services, developed and refined over four decades, give substance misusers, their families and carers, the power to make their own choices, set their own goals and make a positive, lasting change. Offering practical support and treatment from one location including advice on housing, debt, training and employment alongside the full range of clinical interventions, our Integrated T2 and T3 model is a highly effective way to tackle drug and alcohol misuse.

### Integrated Tier 2 & Tier 3: Real benefits

Turning Point offers a responsive, cost-effective, fully integrated service that delivers real results. At Turning Point we:

- Work with you to create a truly integrated, fully accessible, evidence-based community drug and alcohol service for people at all stages of the recovery cycle
- Help you streamline services, reach and retain more people, reduce strain on other services, cut waiting lists and make significant cost savings
- Put you back in control. With proven management systems we reduce risk, control exit strategies and eligibility criteria and help you meet or exceed your targets
- Give you the opportunity to innovate, be ready for the future, offer new services and support people using modern, powerful, proven services from the UK's largest, most experienced provider.

**Turning Point Tier 4 works. For more information on how to access our existing services or how we can design a new service for you call us today on 08456 029 408.**
